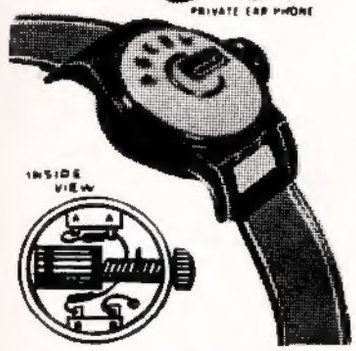
WRIST RADIO

RECEIVES BROADCASTS UP TO 50 MILES WITH ATTACHED ANTENNA
WEAR IT LIKE A WATCH
LISTEN IN LIKE A RADIO



Wow! A wrist radio like the one used by the famous detective character that really works. Yes, imagine receiving broadcasts up to about 50 miles, using the antenna attachment. Without attaching the antenna lead-in clip (which is included), to a substantial antenna such as the dial stop on a telephone, reception is limited to a few miles. Think what fun it will be to have your own personal wrist radio that actually permits you to listen to your own programs without disturbing others, and there are no batteries, no tubes—nothing to wear out. Makes detective and battle games seem more real, pretending to transmit messages, and getting help in the nick of time. Complete with private earphone.

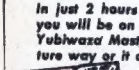
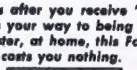
BOYS! MEN! I'LL HELP YOU MASTER YUBIWAZA

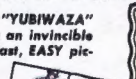
— says N.J.FLEMING — YUBIWAZA MASTER

*(YUBIWAZA IS THE SECRET, AMAZINGLY EASY ART OF SELF-DEFENSE THAT TURNS JUST ONE FINGER OR YOUR HANDS INTO A POTENT WEAPON OF DEFENSE—WITHOUT ANY BODILY CONTACT...)

In just 2 hours after you receive "YUBIWAZA" you will be on your way to being an invincible Yubiwaza Master, at home, this Fast, EASY picture way or it costs you nothing.







WHAT YUBIWAZA CAN DO FOR YOU IN JUST A FEW SECONDS

11:05 P.M.—You return from dance. Hoodlums throw insulting remarks to your date.	11:06 P.M.—They attack you with fists and battles. You counteractack with YUBIWAZA	11:06 P.M. PLUS 7 SECONDS — You are unscathed — while every hoodlum is on the run.

The VITAL Decision is YOURS to make! Which shall it be? ☐ To play it "chicken" by running away? ☐ Be a "hothead" and be beaten up? ☐ Mail coupon now and be prepared with Yubiwaza to send your attackers flying!

I'M A 3rd-DEGREE HOLDER OF THE BLACK BELT—SYMBOL OF HIGH PROFICIENCY IN THE JAPANESE SYSTEM OF SELF-DEFENSE THAT USES NO WEAPONS BUT BARE HANDS. I spent many years in Japan learning these little-known SECRETS. The most amazingly effective of all Self-Defense techniques that stood out in ALL my Japanese training is contained in my AMAZING new Yubiwaza book — all yours to have if you ACT NOW. YUBIWAZA is the name of a fantastic ☐ EASY -- And I am now ready to system of Self-Defense that makes use of an EASY-to-Learn knowledge of vital body areas, and the teanniques of the use of just ONE Finger or the entire hand to counteract & overcome ANY violent attack. It is commonly known that with the aid of Yubiwaza, young men - and girls, too! -- with only a few hours of training, turn back 2, 3 and even 4 attackers — temporarily DISABLING ONE, putting another to flight, making a third howl with pain, while the fourth begged his opponent to stop!

NOW YOU TOO CAN LEARN YUBIWAZA!

The experts in Japan, who know and teach these ONE-finger techniques, have now explained that YUBIWAZA is a centuries-old system of Self-Defense which is as simple and as effective that outsiders were never instructed in its use. The system was restricted to Japanese who SWORE to apply these methods only in time of danger and attack by an aggressor. Many of the very techniques in my Yubiwaza book, once highly guarded secrets of the ancient Samurai warriors never shown to outsiders are now shown to you - FIRST time!

show you, too, through clear, easy-to-understand photos, every secret, guarantee to make you a YUBIWAZA specialist in hours—or every cent you paid will be refunded. You don't have to attend any school where I train beginners like you and turn them into experts. Now I can show you how to practice YUBIWAZA in the privacy of your own home with only a few minutes of practice a day! I'll show you how to defend yourself against headlums, bullies, "wise guys" and juvenile delinquents who respect neither lives nor property.

When you apply YUBIWAZA methods, you can cut an aggressor down with JUST ONE FINGER! You can disarm an opponent rushing you with his fists, or feet, knife, gun, revolver or any kind of bludgeon. You can turn an aggressor's attack into your advantage with only one finger or your bare hands. No matter how "hot" the action gets, YUBIWAZA keeps you "cool". You can apply simple pressure at your finger against any one of a dozen or more vital nerve centers of your opponent and watch his gun or knife fall from his limp hand while he himself sinks to the ground completely helpless and faint. If the neighborhood bully pushes you, you can make him say "uncle" quickly —with the help of YUBIWAZA!

MASTER EVERY SITUATION!

Make no mistake! The world is crowded with anti-social enemies who think nothing of sticking a knife into the ribs . . . or attacking peace-loving citizens just for the fun of it . . . or molesting boys and girls shamelessly. There is a crying need for a system of self-defense that relies on KNOWLEDGE, not big muscles or strength . . . that depends on SKILL and TECHNIQUE — not weight or size of body . . . that is based on simple TRAINING—not on illegal possession of weapons. When you know YUBIWAZA you can disarm and disable your opponent in seconds. You can repel a mugger who grabs you from behind—no matter how big he is or how much he outweighs you. You know WHERE to attack, and how. You learn the body's major vulnerable regions, the defense or unguard position to take, and your body's personal weapons which you can apply for maximum advantage. I have jam-packed all I know about YUBIWAZA into my Guide, which I have profusely illustrated and clearly explained. I take you step by step through the fundamentals of this amazing system so that you understand clearly and immediately how these effective principles work. You learn those tricks used by marines, police and G-men — how to floor any bully . . . how to touch vital spots that will make any attacker helpless. No matter whether you are big or small, strong or weak, you can overpower practically any opponent with lightning speed!

BECOME A NEW MAN!

Knowledge of YUBIWAZA will turn you into a NEW MAN even if you never actually have to use it! For you will become SELF-ASSURED through your ability to handle yourself. You will walk with a determined and confident air assure with the knowledge that NOTHING can frighten you . . . that you can deal with ANY man, ANY weapon, ANY situation—and that you can do all this with NO bodily contact! And you will win respect and admiration from everyone.

Thousands of men of all ages have won confidence and respect by learning YUBIWAZA. YOU can do the same! You owe it to your own peace of mind . . . to your friends and loved ones—to be able to defend yourself in these days when attack may come at any time and place from hoodlums, criminals and delinquents. ☐ mail Coupon NOW for my COMPLETE instruction on YUBIWAZA. If you and your friends don't say that YUBIWAZA has made a NEW MAN out of you, every cent will be refunded!

"I WEIGH ONLY 98 LBS. — YET I CAN PARALYZE A 200 POUND ATTACKER WITH JUST A FINGER —BECAUSE I KNOW YUBIWAZA!"

. says Yoshie Imanami — Pretty Japanese wife of N.J. Fleming — Yubiwaza Master

THE AGE OF SPACE

Ninety-nine per cent of the earth's atmosphere lies within 20 miles of the surface of our planet. Beyond this blanket of oxygen and other life giving elements lies the great unknown called "space."

Scientists tell us that travel to the Moon will be possible in the not-to-far future. The Moon is some 240,000 miles away. Beyond the Moon is Mars — some 35,000,000 miles from earth. Man has set his sights on round trip travel to the Moon and Mars, and to planets beyond — travel which could conceivably take place within the span of your own lifetime.

At first, only animals will be sent aloft in space vehicles. From these experiments, our scientists will learn how man will react under conditions of travel in outer space. Some of these spaceships will be fitted with television transmitters that will send back pictures of huge portions of the earth itself, as well as pictures of other planets. These pictures will help in weather forecasting, map making and similar scientific activities.

To accomplish these things we will need all the inventive genius and technological know-how that can be summoned. Much of this work will be done by scientists, engineers, who like yourself, are now in school, planning for their future education and careers. Airmen, of course, will lead the way in testing and developing the equipment and machines for man's conquest of space.

The first human being to zoom into outer space will be wired so that scientists back on earth can study what is happening to him. This information will be used, among other ways, to help build a "space station" about 1,000 miles above the earth. It is believed by present day experts, that it is from this station, that man will make his first big leap to the Moon. This way-station will be used as a great supply depot from which rocket pilots will penetrate deeply beyond even the Moon.

No one is quite sure what is to be found on the Moon. Today's space scientists plan is to use the Moon as another "way-station" to far distant places. So that the Moon, too, may become another great supply depot for the materials needed for man's far ranging trips into the Universe.

Some scientists believe that enormous spaceships — perhaps as large as ten miles across — will hurl man to stars that are too distant for today's most powerful telescopes to see. In terms of time, these stars are several lifetimes away from the earth.

Another prediction is that whole families will take space trips together. Children, it is said, will be born, grow up and spend their entire lives on interplanetary "cruisers." It may take several generations of one family, traveling constantly at the speed of light, even, to make one of these round trips. Why? Because of the vast areas of space and time with which the people of the future will be dealing constantly.

When the ship returns to earth, its occupants will never have seen this planet before. But they will know all about it because their ancestors who began the journey will have taught them about it. If journeys like these seem beyond the realm of possibility, remember how far man has progressed since the days of the cave. To travel across the American continent in three hours would have seemed impossible to cave men as travel across the Universe now seems to us. Yet an Air Force jet plane accomplished this feat.

You can become a pioneer in the new Age of Space. You can find adventure and challenge working in frontiers of science, engineering and flight. Exciting careers in jet propulsion,

rocketry, electronics and similar fields are open to you through the United States Air Force. And when I say you, I refer to both males and females.

When the average fellow thinks of a career in aviation, he probably is thinking of becoming a pilot. And when the average girls thinks of a career she probably is thinking of becoming a stewardess. True, these are expanding fields. But most airline workers have ground jobs. More than one third of them are skilled mechanics.

Most of today's aviation workers are in the shop and factories making and assembling airplane parts. This work requires thousands of engineers, mechanics, technicians and skilled assemblers. The industry is expanding. Working conditions and pay are well above the average.

Many of the workers for the aviation industry and for the commercial air lines obtained their skills through the facilities of the U. S. Air Force. Pioneering in space travel, the Air Force is opening a vast new field of exciting occupations for the men of the Age of Space. Many of these men will be trained in the scores of Air Force schools.

Now don't rush right out and make up your mind you are going to join. A career with a future in Space is something right out of dreamland for you. If you are in school, complete your education first. Today's complex machines and equipment require skills that were not dreamed of a few short years ago. It is no exaggeration to say that an Airman is no better than his education. Because you cannot even begin to understand your duties, unless you have been thoroughly grounded first in the principles of mathematics, science, language and other subjects. The following statement by Dr. Theodore Von Karman hits the nail on the head:

"Today's Air Force defenses are based on scientific fundamentals and perfected through research. Science develops, industry produces, but in the final analysis it is the technically trained young man upon whom the Air Force depends to maintain its combat efficiency. Men such as these will play an important part in our nation's future."

Women's ability to perform many military jobs formerly assigned to men is well recognized throughout the Air Force. Women (WAF) have become a permanent part of the USAF. The wide scope of assignments available to women is shown by the fact that 34 of the 43 Air Force enlisted career fields are available to women. Consequently, women hold many important and high technical positions. Women use radio to give directions from control towers at air bases. They work side by side with men in such career fields as medical, dental, administration, personnel, communication, weather, photography and aircraft control and warning. Women are eligible for training at many of the Air Force's technical training schools.

What do you like to do? Do you like to tinker with jalopies? If you do, you may find an exciting career in Aircraft and Engine Maintenance in the Air Force. If you'd like to work with jets, helicopters and other aircraft, be sure to study math, physics, electricity and machine shop in school. These subjects are basic for this field. Special Air Force training leads to assignments as aircraft mechanic, helicopter mechanic, jet engine mechanic and reciprocating engine mechanic.

Have you thought of a career in radio-radar work? This field is expanding rapidly and there are big opportunities for radio-minded young men and women in the U. S. Air Force. Both ground and air radio and radar are used widely in the Air Force. Special Air Force training leads to such jobs as aircraft radio repairman, aircraft control and warning, radar repairman. If you're interested in a career in this field, be sure to take math, physics, electricity and radio in school. Air Force studies include radio operating procedure, electron tubes and circuits, transmitters and antennas, etc.

You've probably read some exciting books and stories about people who worked in Intelligence in World Wars I and II. Want a career in this interesting field? If you have taken the right courses in school and are the right type, the Air Force would be interested in giving you further training. The Air Force trains specialists to become language technicians, intelligence operators specialists and technical intelligence technicians.

Atomic weapons are the most powerful and modern tools of the Air Force. These new weapons must be inspected and repaired as well as maintained. The work calls for specialists. Air Force training leads to a career as weapons fusing system specialists.

Who knows what tomorrow will bring? The job today of the Intelligence specialist is to translate and interpret foreign languages, question prisoners, read foreign matters and audit TV-radio broadcasts, study photographs, and analyze equipment and research. But on the tomorrow of the Space Age, they may have to learn how to communicate with Martians, question people on the Moon, study wave lengths from Saturn, and figure out the use of some of the technical equipment used by the Venutians.

For we are in the Age of Space and the United States Air Force is prepared for it — and continuing to prepare for it. Ah, if I were just your age today.

NEW DISCOVERY IN HYPNOTISM

shows how to hypnotize in 30 seconds!

Yes, an amazing new method has been developed to bring on quick, easy induction of the hypnotic trance. Now, for the first time, you too can benefit from this recent discovery in hypnotic induction.

QUICK RESULTS

Want to hypnotize your friends? Your club members? HOW TO HYPNOTIZE is a remarkable primer that shows you just how to master the latest improved induction methods. The author, a widely experienced hypnotist and consultant, gives you the exact positions to take, the precise phraseology, all the steps necessary to hypnotize even the most difficult subjects.

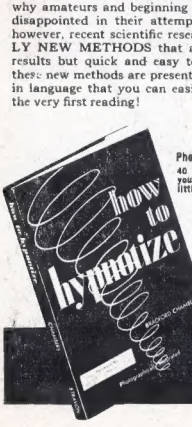
EXCLUSIVELY in **How to HYPNOTIZE**

ENTIRELY NEW METHOD

Until recently the process of hypnotic induction was largely based on trial and error methods which succeeded mainly with subjects who were highly susceptible to hypnosis in the first place. The truth is that these highly susceptible subjects make up a very small percentage of the population. That is why amateurs and beginning hypnotists have so often been disappointed in their attempts at trance induction. Now, however, recent scientific research has developed ENTIRELY NEW METHODS that are not only sure fire in their results but quick and easy to achieve! For the first time, these new methods are presented in HOW TO HYPNOTIZE in language that you can easily and successfully follow on the very first reading!

SHOWS YOU STEP BY STEP

This book — which has been acclaimed by doctors and psychologists — is guaranteed to give you all the know-how necessary to induce the trance state in others. It not only explains the latest discoveries in hypnotic induction, but it shows step by step, move by move, exactly how to bring on the trance; how to transform the trance into deeper and still deeper states; and how to terminate the trance quickly and effectively without any dangers whatsoever. You are even given alternative methods, so that you can actually chose the one that suits you best.



Photographically Illustrated

40 photographic illustrations show how you can achieve trance induction in as little as 30 seconds!

USED BY DOCTORS

The book that is being used by doctors and psychologists to learn hypnotic induction is now available to you
